

## **Job Description: Junior Frontend Developer**

Ondatis AG is a new company based in Zurich, providing Consulting and Technology services to large enterprises. Our product portfolio is rapidly expanding to respond to the growing needs of our clients.

We are therefore seeking a junior Frontend Developer to join the development team with immediate effect. The ideal candidate will be highly motivated, eager to learn and grow, with a hands-on approach and strong attention to detail.

### **Key Responsibilities**

- Support CTO in key projects for web application development
- Run smaller projects autonomously with supervisory oversight
- Closely collaborate with UX experts
- Contribute creatively to innovative user interface approaches

### **Requirements**

- Bachelor degree in Computer Science or equivalent
- Very good HTML/CSS knowledge
- Good JavaScript knowledge
- Preferably experience using jQuery, AngularJS and/or React.js
- Preferably experience creating responsive designs using CSS3 and/or Bootstrap
- Preferably basic C# knowledge

### **What we offer**

Ondatis AG offers challenging roles in a fast-paced start-up environment with a supportive working context where motivation, commitment and hard work are valued and rewarded.

### **Disclaimer / Policy Statements**

Ondatis AG is an Equal Opportunity Employer. We respect and support diverse cultures, perspectives, skills and experiences within our workforce.
